

Some additional thoughts...

A growing sense of responsibility for the environment and society characterises the research-development services of the Institute for Transport Sciences.

Keeping the above-mentioned facts in mind, KTI promotes (at the national level) the realisation of the aims laid down in the resolutions of the European Council regarding competitiveness and the knowledge base.

There are some 180 professional staff permanently working at KTI, of which three have an MTA1 doctoral degree, three are holders of the MTA candidate (PhD) degree, and 13 staff members have doctoral degrees.

KTI has several accredited laboratories, and the Institute conforms with ISO 9001 and ISO 14001 standards.

KTI actively takes part in various EU projects, such as:

ALSO DANUBE, AMADEUS, ARTEMIS, CENTRAL LOCO, CODE-TEN, COMPETE, COMPRIS, DESIRE, ECO4LOG, FEMOPET, FORMAT, IMPROVER, IN-SAFETY, INTERMODA, LIFETIME, MASTER, MORYNE, NAS-ITIP, NET-TRACK, OSSA, NR2C, PARIS, PROMIT, QUANTIFY, RIPCORD, ROSE25, ROSEBUD, SAFETYNET, SAMARIS, SARTRE3, SCENARIOS, SCENES, SENSOR, SPENS, SUNFLOWER-6, SUPREME, TRACKSS

And if this is not enough...

... in terms of rural development and equal opportunity, you can also find KTI offices in six regional centres outside of Budapest, where the experts of the Institute are at your disposal concerning bus transport, railway timetables and development, and in issues relating to the local government and tenders.
